

HEALTH DEPARTMENT

BEACH HOTLINE

Public Bathing Beach Hotline: 203-656-7323

Bathing beach water will begin being tested the week of May 24, 2010

Residents of Darien can call the hotline, which will be updated regularly to find out if the 2 town beaches, Weed and Pear Tree Point, are open for swimming. The Health Dept. will be conducting water sampling to determine bacterial quality at the above beaches through Labor Day.

Please be advised that rainfall events of 1 inch or more during a 24-hour period will result in closure of bathing beaches. Check the Hotline after heavy rains to learn when beaches will reopen.

Thank You and Healthy Swimming!
